Ways of Working

- We will delegate tasks individually or in pairs, it depends on the specific task.

Weekly schedule

- Monday - Know what tasks we need to solve for the rest of the week.
- Tuesday - Work on the delegated tasks.
- Friday - Are the tasks completed? Github release.
- Sunday - Buffer if the tasks for Friday aren't fully completed. (Github release).

Norms & Guidelines:

Decision making

- Open discussion where each member will argue for their point of view.

Throughout the discussion, the group will try to reach a solution to the problem. Each member must be willing to compromise, for the good of the group.

If it's impossible to reach a solution, it will be necessary to vote.

Communication

- The main ways of communication will be through Discord and Facebook Messenger.

Conflict resolution

- Level 1: Small conflict - Nothing needs to be done.
- Level 2: Big conflict - Group meeting.
- Level 3: Huge conflict - Consult with a TA.
- Level 4: Impossible conflict - The member will be kicked out of the group.

Workload

- 15 - 22 hours a week

If you are late

- Contact a member of the group as soon as possible.

Group-"Logbog"

- Adam, Casper and Mads have the responsibility to make sure the log is done properly.
- Every member contributes 15-30 minutes at the end of each day, to make sure the log is good.
